REACH Declaration 2025

REACH regulation EC 1907/2006

S. Lilley & Son Limited is a manufacturer of brass lampholders and lighting components, thus for the purposes of REACH we are a downstream user. The products we supply to you are solely non-chemical products (goods). Moreover and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substances. Those chemicals used by us never reach the lower limit of 1 tonne/year, for these reasons, S. Lilley & Son Limited are neither obligatory for registration nor for the creation of material safety data sheets (MSDS).

In order to be certain that we are acting within the framework of this regulation, we keep a material and hazardous material register in which data sheets are collated from our suppliers, and we will check that our suppliers will comply to current REACH requirements for all materials and substances we use. Furthermore, we will immediately inform you in correspondence to REACH- Article 33 if any substance of content (as from a content of >0.1%) in our goods will be classified alarming by the European Agency for Chemicals ECHA. Based on current status, however, we do not expect such an incidence.

Yours faithfully,

Simon Lilley
